How CAMPO VERDE 1-0-15 Zeta plex K Works

Campo Verde 1-0-15 Z e t a ≈ p l e x K™ is the combination of a patented amino acid polymer and a proprietary manufacturing process providing a product that is readily taken into plant tissue and remains available to the plant for substantially longer periods.

This allows maximum plant nutrition utilizing low dose applications.

Campo Verde 1-0-15 Z e t a ≈ p l e x K™ delays the formation of insoluble, unavailable precipitates due to the interaction of positive and negative ions.

Key Product Benefits

- Absorbed into plant tissue
- Improved stress tolerance
- Improved nutrient uptake and use
- Immediate plant response
